

# International Smart Grids Action Network (ISGAN)

Dr M. Moser / Dr T. Demiray

## ■ Aim of TCP

- Accelerating progress on key aspects of smart grid policy, technology, and investment in specific projects and programs;
- Knowledge sharing, technical assistance, peer review and, where appropriate, project coordination among government participants.

## ■ Current topics of TCP

- Smart Grid Case Studies (Annex 2)
- **Cost-benefit and socio-economic analyses (Annex 3)**
- Synthesis for Decision Makers (Annex 4)
- **Smart Grid International Research Facility Network (SIRFN) (Annex 5)**
- **Power Transmission & Distribution Systems (Annex 6)**
- Smart Grid Transitions (Annex 7)
- **ISGAN Academy on Smart Grids (Annex 8)**
