

ACCUMULATED DURATION OF PROJECT PHASES

Sources: SFOE, Swissgrid

Accumulated duration of project phases of selected grid plans in years on grid level 1 as at 17 October 2018⁷

⁷ Remarks on the method used: a) In the case of grid plans with a long preliminary period the duration was calculated from the relaunch of the project concerned; b) in the case of plans with a long preliminary period, it is not always possible to establish the preliminary project phase and the construction project phase, which is why they are not shown in the figure in some cases; c) assumptions were made in agreement with Swissgrid about some dates which are no longer known; d) when the courts refer a PGV decision to the SFOE, half of the supplementary duration of the procedure is allotted to the PGV phase and half to the construction project phase.
